INDEX.

Abrams, Duff A.

Discussion, 72, 132.

Ahlers, John G.

Discussion, 276, 361.

Aggregate.

Report of Committee on Aggregate, 334.
Tolerance of Coarse Aggregate Passing the ¼-in. Sieve, etc. W. K. Hatt and R. B. Crepps.

Balsley, F. M.

Discussion, 89.
Equipment for Concrete Road Construction, 73.

Barges.

See **Ships.**

Blocks.

See **Concrete Products.**

Bridges.

Report of Committee on Concrete Bridges and Culverts, 30.
Standard Concrete Highway Bridges and Culverts. A. C. Irwin, 90.

Bruner, P. M.

Discussion of Floor Treatment, 277.

Buildings.

Lessons in Fire Resistance from the Frankford Fire. W. A. Hull, 205.
Report of Committee on Far Rockaway Fire, 369.
Report of Sub-Committee on Exteriors of Industrial Buildings, 308.

Concrete Products.

Development of Concrete Building Units in England. John T. Stewart, 112.
Report of Committee on Concrete Products, 328.

Cement Gun.

Some Experiences With Thin Concrete Slabs. John V. Schaefer, 40.

Chapman, Cloyd M.

Discussion, 71.

Clay, Wharton.

Discussion, 149.

Columns.

A Study of Column Test Data. F. R. MacMillan, 150.

Committee Reports.

Aggregate, 334.
Cement Floor Finish, 246.
Concrete Bridges and Culverts, 301.
Concrete Houses, 302.
Concrete Products, 328.
Concrete Roads and Pavements, 297.
Concrete Sewers, 329.
Concrete Ships and Barges, 285.
Contractor's Plant, 335.
Far Rockaway Fire, 368.
Metal Forms, 292.
Nomenclature, 322.
Research, 281.
Standard Units of Design, 316.
Storage Tanks, 330.
Treatment of Concrete Surfaces, 306.

Contractor's Plant.

Development in Plant and Organization for Concrete Road Construction. C. R. Ege, 79.
Equipment for Concrete Road Construction. F. M. Balsley, 73.
Report of Committee on Contractor's Plant, 335.
Discussion on Contractor's Plant, 360.

Crepps, R. B., and W. K. Hatt.

Tolerance of Coarse Aggregate, etc., 213.

Culverts.

See **Bridges.**

Design.

Moments and Stresses in Flat-Slabs. W. A. Slater and H. M. Westergaard, 415.
Report of the Committee on Standard Units of Design, 316.
A Study of Column Test Data. F. R. MacMillan, 150.

Ege, C. R.

Development in Plant and Organization for Concrete Road Construction, 79.
Discussion, 86.

Fire Resistance.

Lessons in Fire Resistance from the Frankford Fire. W. A. Hull, 205.
Fire Resistance of Concrete Block and Brick. J. E. Freeman, 231; S. H. Ingberg, 234; W. C. Robinson.
Report of the Committee on the Far Rockaway Fire, 368.

Flat-Slabs.

Moments and Stresses in Flat-Slabs. W. A. Slater and H. M. Westergaard, 415.

Floors.

Recommended Practice for Laying Concrete Floors, 253.
Standard Specifications for Concrete Floors, 258.
Report of Committee on Cement Floor Finish, 246.
Test of a Flat-Slab Floor. H. F. Gonnerman and F. E. Richart, 182.

Forms.

Report of Committee on Metal Forms, 292.

Freeman, J. E.

Fire Resistance of Concrete Block and Brick, 231.

Ginsberg, F. I.

Discussion, 364, 366.

Godfrey, Edward

Discussion, 111, 176.

Gonnerman, H. F., and F. E. Richart.

Test of a Flat-Slab Floor, 182.

Hatt, W. K.

Discussion, 71, 72.
Tests of a Concrete Mixer, 47.
Tolerance of Coarse Aggregate, Passing the ¼-in. Sieve as Affecting Specifications for Gravel Aggregates, 213.

Havlik, Robert F.

Discussion, 241, 242.

Houses.

Development of Concrete Building Units in England. John T. Stewart, 112.
Report of Committee on Concrete Houses, 302.
Tentative Recommended Practice for Concrete House Construction, 302.

Howe, H. N.

Discussion, 276.

Hull, W. A.

Lessons in Fire Resistance from the Frankford Fire, 205.

Humphrey, Richard L.

Discussion, 72.

Ingberg, S. H.

Behavior of Concrete Constituents Under Fire, 234.

Irwin, A. C.

Standard Concrete Highway Bridges and Culverts, 90.

Lagaard, M. B.

Discussion, 172.

Libberton, J. H.

Discussion, 38.

Lockhardt, W. F.

Discussion, 367.

Loney, N. M.

Discussion, 280, 367.

Lord, A. R.
Discussion, 178.

Lowell, John W.
Coloring Concrete, 122.

MacMillan, Franklin R.
Discussion, 179, 180.
A Study of Column Test Data, 150.

Martin, E. S.
Discussion, 268.

Miner, J. C.
Discussion, 315.

Mixing.
Tests of a Concrete Mixer. W. K. Hatt, 47.

Nomenclature.
Report of the Committee on Nomenclature, 322.

Oil Storage.
Further Tests of Concrete Tanks, etc. G. A. Smith, 22.

Older, Clifford
Discussion, 299.

Ord, William
Discussion, 86.

Pearson, J. C.
Discussion, 38, 39, 149, 267, 315.
Shrinkage of Portland Cement Mortars and Its Importance in Stucco Construction, 133.

Perrot, E. G.
Discussion, 180.

Plant.
See **Contractor's Plant.**

Research.

Report of Committee on Research, 281.

Richart, F. E., and H. F. Gonnerman.

Test of a Flat-Slab Floor, 182.

Roads.

Development in Plant and Organization for Concrete Road Construction. C. R. Ege, 79.
Equipment for Concrete Road Construction. F. M. Balsley, 73.
Report of Committee on Concrete Roads and Pavements, 297.
Standard Concrete Highway Bridges and Culverts. A. C. Irwins, 90.

Robinson, W. C.

Fire Tests for Concrete Blocks, 238.
Discussion, 241, 242, 243.

Rynerson, W. M.

Discussion of Concrete Floor Treatments, 269.

Schaefer, John V.

Some Experiences With Thin Concrete Slabs, 40.

Sewers.

Report of Committee on Concrete Sewers, 329.

Ships.

Report of Committee on Concrete Ships and Barges, 285.

Slater, W. A., and H. M. Westergaard.

Moments and Stresses in Flat-Slabs, 415.

Smith, George A.

Further Tests of Concrete Tanks for Oil Storage, 22.

Smulski, Edward.

Discussion, 204.

Standpipes.

See **Tanks.**

Steele, E. A.
Discussion, 361.

Stewart, John T.
Development of Concrete Building Units in England, 112.

Stucco.
See **Surface Treatment.**

Surface Treatment.
Coloring Concrete. John W. Lowell, 122.
Report of Committee on Treatment of Concrete Surfaces, 306.
Report of Committee on Cement Floor Finish, 246.
Discussion of Concrete Floor Finish, 267.
Shrinkage of Portland Cement Mortar and Its Importance in Stucco Construction. J. C. Pearson, 133.

Talbot, K. H.
Discussion, 71, 72.

Tanks.
Further Tests of Concrete Tanks for Oil Storage. G. A. Smith, 22.
Report of Committee on Storage Tanks, 330.

Tests.
Reinforced-Concrete Flat-Slabs. W. A. Slater and H.M. Westergaard, 415.
Further Tests of Concrete Tanks. G. A. Smith, 22.
Shrinkage of Portland Cement Mortar, etc. J. C. Pearson, 133.
Report of Committee in Research, 28.
A Study of Column Test Data. F. R. MacMillan, 150.
Tests of a Concrete Mixer. W. K. Hatt, 47.
Test of a Flat-Slab Floor. H. F. Gonnerman and F. E. Richart, 182.
Tests of Repaired Building in Report of Committee on Far Rockaway Fire, 368.

Thompson, Sanford E.
Discussion, 38, 365, 366.

Tucker, E. A.
Discussion, 295.

Turner, H. C.

Aims and Activities of the American Concrete Institute. Presidential Address, 20.
Discussion, 242, 243.

Turner, J. P.

Discussion, 360.

Wason Medal.

Awards, 18.

Westgaard, H. M., and W. A. Slater.

Moments and Stresses in Flat-Slabs, 415.

Williams, G. M.

Discussion, 88.

Wynn, J. W.

Discussion, 362.
